

# HEAVEY DUTY ICE MAKER

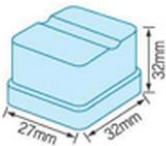

## FEATUERS & BENEFITS

- Self-developed evaporator and cubic welding technique improves thermal conductivity and provides better durability.
- Reliable Danfoss compressor
- Durable ELCO fan motor
- Dual fuse system with spark-killer on every relay to prevent any kind of electrical malfunction
- Unique pump motor provides longer lifespan.
- Block type air filter for better air circulation with high filtering performance

Model	Capacity	Ice storage	Structure material	W * D * H (mm)
RMK-A060	57 kg/day	25 kg	Stainless steel	515*620*903

**Model : RMK-A060**

<b>DATA</b>	<b>RMK-A060</b>
COOLING	Air
DAILY PRODUCTION ( kg/day )	57
ICE BIN CAPACITY ( kg )	25
VOLTAGE	220V / 50-60Hz / 1P
POWER CONSUMPTION (W)	700
REFRIGERANT	R-404A
STRUCTURE MATERIAL	Stainless steel
<b>DIMENSIONAL DATA</b>	
Ext. Width Overall (mm)	515
Ext. Depth Overall (mm)	620
Ext. Height Overall (mm)	903
<b>ICE DIMENSION</b>	
Width Overall (mm)	27
Depth Overall (mm)	32
Height Overall (mm)	32
SHAPE
