

HEAVEY DUTY ICE MAKER

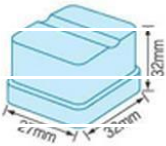

FEATUERS & BENEFITS

- Self-developed evaporator and cubic welding technique improves thermal conductivity and provides better durability.
- Reliable Danfoss compressor
- Durable ELCO fan motor
- Dual fuse system with spark-killer on every relay to prevent any kind of electrical malfunction
- Unique pump motor provides longer lifespan.
- Single-wire control type PCB power system for better electrical safety

Model	Capacity	Ice storage	Structure material	W * D * H (mm)
RMK-W120	120 kg/day	55 kg	Stainless steel	745*620*1150

Model : RMK-W120

DATA	RMK-W120
COOLING	Water
DAILY PRODUCTION (kg/day)	120
ICE BIN CAPACITY (kg)	55
VOLTAGE	220V / 50-60Hz / 1P
POWER CONSUMPTION (W)	1100
REFRIGERANT	R-404A
STRUCTURE MATERIAL	Stainless steel
DIMENSIONAL DATA	
Ext. Width Overall (mm)	745
Ext. Depth Overall (mm)	620
Ext. Height Overall (mm)	1150
ICE DIMENSION	
Width Overall (mm)	27
Depth Overall (mm)	32
Height Overall (mm)	32
SHAPE
