

HEAVEY DUTY ICE MAKER

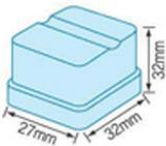

FEATUERS & BENEFITS

- Self-developed evaporator and cubic welding technique improves thermal conductivity and provides better durability.
- Reliable Danfoss compressor
- Durable ELCO fan motor
- Dual fuse system with spark-killer on every relay to prevent any kind of electrical malfunction
- Unique pump motor provides longer lifespan.
- Single-wire control type PCB power system for better electrical safety

Model	Capacity	Ice storage	Structure material	W * D * H (mm)
RMK-W250	260 kg/day	160 kg	Stainless steel	760*770*1600

Model : RMK-W250

DATA	RMK-W250
COOLING	Water
DAILY PRODUCTION (kg/day)	260
ICE BIN CAPACITY (kg)	160
VOLTAGE	220V / 50-60Hz / 1P
POWER CONSUMPTION (W)	1500
REFRIGERANT	R-404A
STRUCTURE MATERIAL	Stainless steel
DIMENSIONAL DATA	
Ext. Width Overall (mm)	760
Ext. Depth Overall (mm)	770
Ext. Height Overall (mm)	1600
ICE DIMENSION	
Width Overall (mm)	27
Depth Overall (mm)	32
Height Overall (mm)	32
SHAPE
